

Lab Sheet 4 (CST-108)

Raw Sockets

1. Study, implement and test the code of ping given in W Richard Stevens' book Unix Network Programming – The socket Networking API Vol. 1.

Run the program to ping following websites and report the output.

- (i) 17.0.0.1
- (ii) www.google.com
- (iii) www.iitr.ac.in

[Note: there is no need to implement the code that handles IPv6]
